

BAY AREA TO CENTRAL VALLEY HIGH-SPEED TRAIN PROGRAM EIR/EIS

SCOPING PERIOD COMMENT FORM

Thank you for attending today's meeting. The purpose of the scoping process is to identify public and agency concerns, focus the environmental document, and define the issues that will be examined in the Draft Program Environmental Impact Report/Environmental Impact Statement (EIR/EIS). The scoping procedure also helps to identify project impacts, alternatives, mitigation measures, and environmental subject areas deserving attention. Please return any comments to the California High-Speed Rail Authority (return address on the reverse side of this form) by December 16, 2005.

LIBRARY

COMMENTS:

How can we build a high speed train system from Sacramento to San Diego, when we can't even get Bart to Livermore? Livermore residents have been paying taxes for years & no Bart.

Tell me why I should support this plan? Sound good, but will it even be possible? Lots of question, do you the answers? Let me know.
